Spaces that work Stories that stay

We create spaces with history
- designed to function, created to keep inspiring.

About us

Over the years, together with our team, we have created more than 300 projects for the hospitality industry. We deliver projects in the most prestigious locations in Poland and abroad, co-creating concepts for food halls, chain venues, and independent signature establishments.

**We design
interiors
that evoke
emotions.**

What makes us unique?

Partnership throughout the process - we work side by side with our clients, from concept to completion.

Our creativity is grounded in practical thinking - we know how to combine unconventional ideas with a rational approach to budget and functionality.

With more than a decade of experience, we create spaces that work in real life - from restaurants to hotels.

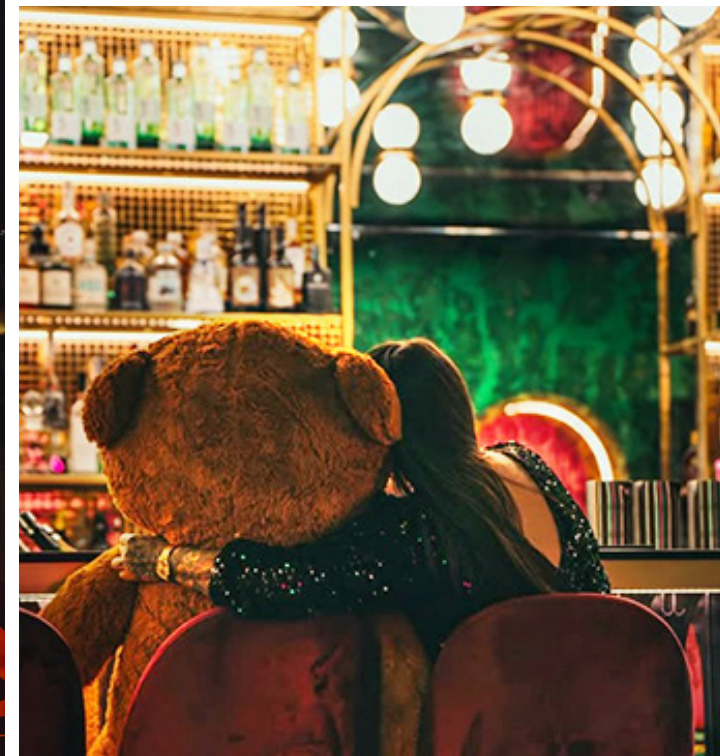

We don't pretend to be someone we're not. We value laughter, good conversations, and genuine relationships. That's how we design, too.

What do we believe in?

A project is more than just a visualization. It's a process - a conversation, a search for solutions, a testing ground for ideas. Design is a tool for achieving goals - in business, in life, and in relationships.

We believe spaces should work on many levels: functional, visual, and emotional.

Every project is a new story for us, where people matter most - both those who create the place and those who experience it.

GASTRONOMY

We design interiors that combine functionality with a unique atmosphere — strengthening brand identity and enhancing guest comfort. We create cohesive concepts, from functional layouts to an ambiance that stays memorable and translates into the success of the venue.

FOOD HALLS

We create multifunctional, vibrant food and beverage spaces that attract diverse audiences. We focus on clear layouts, a strong sense of place, and flexibility that enables effective management of commercial use and events.

HOTELS

We provide comprehensive design for hotel spaces - from lobbies and guest rooms to relaxation areas, restaurants, and conference halls. Our interiors create a cohesive brand experience and respond to the needs of modern travelers.

SPA & WELLNESS

We create spaces that foster relaxation and regeneration, combining ergonomics, a sensory atmosphere, and high industry standards. We design spa zones, treatment rooms, and back-of-house areas with the comfort of both guests and staff in mind.

OFFICES & SHOWROOMS

Projektujemy nowoczesne przestrzenie komercyjne i biurowe, które wspierają komunikację marki, efektywną pracę i pozytywne doświadczenia odwiedzających. Tworzymy wnętrza, które inspirują, budują zaufanie i ułatwiają prezentację produktów oraz usług.

Let's meet!

We live locally, we operate globally.

We invite you to our office:

ul. Gombrowicza 15
01-682 Warszawa
